

# Our Project by Sam and Harry

Our project is about the servants. We chose the servants because we wanted to know what jobs they had.

We started our project by gathering information, typing about pictures and making a front cover. We also went on the Internet.

We decided to look at as many sources as possible. We used books to find out about the lives of Victorian servants. We even used documents from the time. We were very interested to find a list from Mrs Beeton's housekeeping book, which gave advice on how much to pay your servants.

We also wanted to find out if the servants of Cardiff Castle were the same as the servants in the books, we found newspaper article about a lady who used to work at Cardiff Castle. We also found out that Lord and Lady Bute treated their servants fairly, they even set up the Bute Dowry prize to help servant girls who were too poor to afford to get married.

The most interesting thing about our project was the Housemaids because we found lots of information on the Internet about them.

Finally, we put our project together. We put everything in order and we had finished.
